

# Luxury Kitchen

## Your independent source for innovative kitchen design

**R**osemary Porto, founder of Luxury Kitchen, specializes in the creation of innovative high-end kitchen designs that articulate her clients' desires and align with the harmony of their homes. She says, "I see the kitchen as the heart of a home, the source of its energy. My goal is to realize the client's vision with design that is timeless, yet functional; the results are luxurious in a fundamental way, incorporating the latest innovations without succumbing to trendiness."

Rosemary's contemporary designs can be seen along the East Coast from Florida to Vermont, from Martha's Vineyard to New Hampshire, and throughout Boston and its surrounding suburbs. ■
