## Introducing *MentoringComplete*

No doubt, the concept of mentoring has a long and colorful history: Socrates mentored Plato. Plato mentored Aristotle. And Aristotle mentored Alexander the Great. The word "mentor" actually comes from Greek mythology. In Homer's *The Odyssey*, Mentor was a person who counseled and guided Odysseus' son, Telemachus.

Today, the concept of "mentoring" is alive and well, especially in the corporate world. But, of course, shouldn't the passage of time bring innovation even to the most

innovative of concepts?

Imagine a web-based mentoring program that boasts ease-of-use, simplified set-up, and advanced reporting, with the features you want and the benefits you desire. Imagine a mentoring program that grows with you and your company, not against you. Imagine a mentoring solution so complete that it'll make any other program pale in comparison.

### **Imagine No More.**

At Management Mentors, we've been designing and implementing corporate mentoring programs for nearly twenty years. We've studied the needs of businesses like yours, of mentoring program managers, of mentors, and of mentorees. We watched the Age of Technology transform companies for the better. This completely web-based program doesn't require any server set-up or IT involvement on your end, and it's completely customizable to fit your company's unique needs.
