

## Why Good Egg

If your current background screening isn't broken, why fix it, right? But here's the thing: how do you *know* it isn't broken?

Ask yourself the following...

- Did you inherit the current system?
- Are you losing out on exceptional talent because everything is SLOW?
- Worried about risk due to social media?
- Is everything still paper-based?
- Does the check only look at past behavior (think education and employment)?
- Does your vendor's customer service stink?
- Have you been wondering "is there a better way"?

If you answered yes to even just one of those things, then the real question becomes... **Why NOT Good Egg?**
